MORGAN PELL MEATS

Home Grown Beef and Lamb
Traditionally farmed in North Bedfordshire

All our sheep and cattle are reared on the farm. In the summer they graze the succulent meadows of the River Ouse and North Bedfordshire. In winter they are housed in open barns and bedded on straw. They eat only home- grown feeds of hay, silage, straw and cereals.

Using those traditional farming methods and a local abattoir we produce the very best tasting and succulent meats.

Kevin and Judy have been farming together since 1986.
